THE FUTURE OF DENTISTRY TODAY

WHY IS THIS A SPECIAL CONGRESS?

This edition marks Biomax's 25th anniversary of its annual international congresses (Verona-Abano). A prestigious milestone that makes us all very proud and, at the same time, motivates us to improve and update our congressional offer.

We sense the urgency to **renew our cultural contents and to expand the scope of our congresses** with a multidisciplinary approach that better defines todays' therapeutic protocols.

To resolve the numerous orofacial pathologies and disorders afflicting today's patients, trained dental professionals can now make use of state of the art devices and innovative digital technologies never available before.

This advanced technologies are expanding and radically transforming the dental profession.

To elaborate a correct diagnosis and a correlated treatment plan of dysfunctional orthodontic and implant cases, as well any other orofacial pathology, we need to involve various specialized disciplines synergistically aligned toward a common clinical solution.

The goal of this congress is to offer an expanded treatment view of the patient and the current available therapeutic options. It intends to inspire dental professionals to develop a new awareness, to discover new aids, to develop new skills, to engage in constructive debates and embark in new and fascinating clinical approaches.

01 SESSION

RESTORING HARD AND SOFT TISSUES IN ORDER TO REGAIN DENTAL FUNCTIONS

Moderators

VITTORIO DI LUCIA
ROBERTO LUONGO
VINCENZO PENZI

09.00 – 09.25 ANDREA GRASSI
New evidence on the use of periosteal inhibition to maintain post-extraction alveoli

09.25 – 09.50 DIEGO LONGHIN
Biological potentials for long term successful implant therapy

09.50 – 10.15 ALESSANDRO CUCCHI
Simplifying reconstructive surgery through innovative technologies

10.15 – 10.40 FABIO MAZZOCCO
Everyday clinical mucogingival regeneration focused on peri-implant health

10.40 – 11.20 RODOLFO GIANSERRA
ANDREA PILLONI
Restoring dental functions in the periodontal stage 4 patient

11.20 – 11.50 COFFEE BREAK

11.50 – 12.15 ELIO MINETTI
Dentin's osteoinductive function in regenerative therapy. New research studies and clinical evidence

02 SESSION

ATM, OCCLUSION AND DEGLUTITION (Part 1)

Moderators

CLAUDIO BARCHITTA
CRISTINA CONFORTE

12.15 – 12.40 PIERO SIMEONE
Diagnostic studies to support specific oral rehabilitations in patients with dysfunctional temporo-mandibular articulations

12.40 – 14.00 LUNCH

14.00 – 14.45 STEFANO COLASANTO
VINCENZO DE CICCO
Occlusion and deglutition: from postural impacts to neural dysfunctions

03
SESSION

PERI-IMPLANT SEAL STABILITY IN FUNCTION OF AESTHETICS

Moderators
LEONARDO MAGGIOLINI
MARCO TALOCCO
MAURIZIO OTTOMANO

14.45 – 15.10 GIANLUCA PANIZ
The lack of tissue volumes corrected through gingival profile remodeling to restore the aesthetic zone

15.10 – 15.35 FRANCO RIZZUTO
Is it possible to optimize the osteogengival seal in restoting the aesthetic zone ? The FR approach

15.35 – 16.00 HOW TO CORRECT DYSFUNCTIONAL CONDITIONS IN GROWING PATIENTS

04
SESSION

HOW TO CORRECT DYSFUNCTIONAL CONDITIONS IN GROWING PATIENTS

Moderators
FRANCESCO MACRÌ
FABRIZIO PRATTICÒ

16.00 – 16.25 SIMONA BUSSU
Indications and clinical supporting evidence for the treatment of dysfunctional conditions in growing patients using the Nuvola Junior Approach

16.25 – 16.50 **SPECIAL PRESENTATION**
PAOLO TOSCANO
Biological repairing of the sinus membrane during implant surgery, consequential to sinus perforation

Moderator
GIUSEPPE MARANO

05 SESSION

MASTICATORY FUNCTION: HOW TO MIMIC THE PROCESS FOR OPTIMAL PROSTHETIC RESULTS

Moderators

GIUSEPPE BIANCO
FEDERICO DULIO

09.00 – 09.40 DOMENICO MASSIRONI
Innovative technique to record articular movements in order to construct functional and patient-specific restorations

06 SESSION

LONG TERM FUNCTION OF PERI-IMPLANT TISSUES

Moderators

LUCIANO MALCHIODI
GIACOMO SANTORO

09.40 – 10.20 ANDREA CHIERICO
DAVIDE FAGANELLO
Restoring and maintaining the peri-implant papilla: myth and reality

10.20 – 10.45 FABIO SCUTELLÀ
The function of prosthetic morphology in the preservation of tissue stability

10.45 – 11.15 COFFEE BREAK

07 SESSION

TREATING TEMPORO-MANDIBULAR (ATM) AND RESPIRATORY DYSFUNCTIONS (Part 2)

Moderators

ANDREA DEREGIBUS
ENRICO SPINAS
ELEONORA SCHELLINO

11.15 – 12.00 STEVEN OLMOS (USA)
Occlusal, myofunctional and respiratory impacts on cranio-facial development and effects on orofacial pain

12.00 – 12.45 SOROUSH ZAGHI (USA)
Functional approach to sleep and respiration: mobility, tonality and spacing of the tongue

12.45 – 13.45 LUNCH

08
SESSION

MORPHOPLASTIC RE-ADAPTATION OF SKELETAL STRUCTURES IN ADULT SUBJECTS

Moderators

ANDREA DEREGIBUS
ENRICO SPINAS
ELEONORA SCHELLINO

13.45 – 14.10 ALESSANDRO CARRAFIELLO
The re-adaptation of skeletal structures for functional restoration according to the OP System

14.10 – 14.20 DILETTA CACCIOLA
Clinical evidence of two morpho-functional rehabilitations with Nuvola OP System

14.20 – 14.40 GUALTIERO MANDELLI
Aligners in the edentulous patient: easing of the engagement for an interdisciplinary treatment

09
SESSION

FUNCTIONAL IMPLANT RESTORATION OPTIONS FOR A VARIETY OF EDENTULOUS CONDITIONS

Moderators

GIUSEPPE RUSSO
GIUSEPPE GRASSO
GIORGIO BOGINI

14.40 – 15.05 GIORGIO RAPPELLI
Masticatory function: a modern approach to ensure general health

15.05 – 15.30 FRANCESCO AMATO
Immediate restoration of the masticatory function in treating single or partial edentulous conditions

15.30 – 15.55 TIZIANO TEALDO
Functional restorations of severally atrophic patients

15.55 – 16.35 MASSIMILIANO AMANTEA
MARCO CARROZZA
VINCENZO VERTUCCI
Simplifying rehabilitative protocols for moderately atrophic and fragile patients

16.35 – 17.00 STEFANO SIVOLELLA
The use of short implants in treating cases with limited crestal bone

DIGITAL SESSION

NEW FUNCTIONAL DIGITAL PARADIGMS TO IMPROVE YOUR PRACTICE EFFICIENCY

Moderators

DEBORAH MELEO
MARTA CARIELLO
MATTEO FURLATI

09.00 – 09.25 **SPECIAL PRESENTATION**
BEPPE RAMPULLA
Real time reading of the patient's functional paradigms for a personalized prosthetic restoration

09.25 – 09.50 ROBERTO GARRONE
No stress surgery: simplifying surgical and prosthetic implant protocols

09.50 – 10.25 GIORGIO POLARA
FABIO PISTONE
Translating personal radiological data into an anatomically precise provisional

10.25 – 10.50 SAVERIO MASCELLANI
Metal-free materials in aesthetic implant restorations

COMPARING TWO DIGITAL FLOWS

10.50 – 11.15 ALESSIO FRANCHINA
The digital instrument as the dental professional individual guiding tool till provisional construction

11.15 – 11.50 MARCO IORIO
The digital instrument as the dental professional individual guiding tool till construction of small final prosthetic restorations

WORKSHOP

05th THURSDAY

01

15.30 —— 17.00

ANGELO GIORGI
EZIO ZANDANEL

TORONTO PROSTHETIC CONSTRUCT: THE SELECTION OF RIGHT COMPONENTS MAKE THE DIFFERENCE IN THE SHORT AND LONG TERM

06th FRIDAY

02

15.30 —— 17.30

MATTEO COLOSIMO
ALESSANDRO CARDUCCI ARTENISIO

PRACTICAL INDICATIONS FOR THE USE OF ALIGNERS IN VARIOUS ORTHODONTIC CONDITIONS

07th SATURDAY

03

09.00 —— 12.30

TIZIANO TEALDO
CHRISTIAN ALBERTI
ROBERTO CAPPÈ

TREATING THE ATROPHIC MAXILLA WITH ZYGOMATIC AND PTERYGOIDAL IMPLANTS

04

09.00 —— 12.30

FRANCESCO OREGLIA
SILVIA TOMASSINI
SABINA FLORIDIA
FABIO ANGELINI
GIANLUCA RUSSO

SEMINAR FOR DENTAL HYGIENISTS

IN COLLABORATION WITH

CURAPROX

Happy to celebrate with you the **25th edition of Biomax International Congress**.
You are Biomax's welcome guest at this historical event.

REGISTRATION FORM

☐ MEETING (3 DAYS)
☐ 01/ COURSE
☐ 02/ COURSE
☐ 03/ COURSE
☐ 04/ COURSE

Complete and send by mail, fax or email to:
BIOMAX SpA via Zamenhof, 615 36100 Vicenza / FAX 0444 913695 / EMAIL info@biomax.it
